Computer Information Systems
BS – CIS

Outcomes	CIS 151	CIS 251	CIS 315	CIS 370	CIS 380	CIS 400	CIS 410	CIS 411
Students are able to code and analyze computer programs.	I	R				M		
Students are able to assess the Information Systems (IS) needs of clients.	I	R		M				
Students are able to design, develop, and implement the information systems to meet IS needs of clients.	I	R	R	R	R	R	R	M
Students are able to describe the capabilities of, and interaction between software and hardware.	I		R				M	
Students are able to plan, organize, cooperate and communicate effectively as members of IS teams.	I		R	M				
Students are able to design data systems to represent and process real world data.	I	R						M

I: Introduced

R: Reinforced

M: Mastery
