Curriculum Map Computer Information Systems BS – CIS

Outcomes	CIS 151	CIS 251	CIS 315	CIS 370	CIS 380	CIS 400	CIS 410	CIS 411
Students are able to code and analyze computer	Ι	R				М		
programs.								
Students are able to assess the Information	Ι	R		Μ				
Systems (IS) needs of clients.								
Students are able to design, develop, and	Ι	R	R	R	R	R	R	М
implement the information systems to meet IS								
needs of clients.								
Students are able to describe the capabilities of,	Ι		R				М	
and interaction between software and								
hardware.								
Students are able to plan, organize, cooperate	Ι		R	М				
and communicate effectively as members of IS								
teams.								
Students are able to design data systems to	Ι	R						М
represent and process real world data.								

I: Introduced

R: Reinforced

M: Mastery
